EDUCATION

Flooring for the Future of Education

The Education Flooring Market encompasses a wide range of flooring solutions specifically designed for educational institutions, including schools, universities, colleges, and research facilities. This market plays a critical role in creating safe, durable, and engaging learning environments, addressing both the functional and aesthetic needs of educational spaces.

Education flooring solutions are tailored for diverse applications such as classrooms, laboratories, libraries, corridors, and administrative areas. As educational institutions increasingly prioritize student well-being, sustainability, safety, and long-term performance, demand for innovative, high-quality, flooring solutions continues to grow.

At Airlay, we offer a comprehensive range of flooring solutions designed to meet these evolving requirements and support modern educational environments.

Durable, Comfortable, and Quiet Learning Spaces

In schools and educational facilities, carpet tiles are an ideal flooring solution. They combine durability, comfort, and noise reduction, creating a safer and more focused environment for students and staff.

Durability for High-Traffic Areas

School corridors, classrooms, and activity spaces see constant foot traffic. Airlay Carpet tiles are built to withstand heavy use while maintaining their appearance, ensuring your learning spaces stay attractive and functional for years.

Noise Reduction and Better Acoustics

Carpet tiles absorb sound, reducing noise levels in classrooms, libraries, and corridors. A quieter environment promotes concentration, effective teaching, and a calm atmosphere for students.

Comfort Underfoot

The soft, cushioned texture of carpet tiles provides a comfortable walking surface for students and staff, making classrooms and common areas more inviting. (0.55mm wear layer)

Easy Maintenance

With easy-to-clean surfaces and the option to replace individual tiles quickly, carpet tiles make school maintenance simple. They help keep learning spaces hygienic and presentable with minimal effort.

Eco-Friendly Options

Many carpet tiles are made from recyclable materials and produced with sustainable practices, allowing schools to make environmentally responsible choices.

At Airlay, we create custom carpet tile designs tailored to your needs. From practical durability to vibrant, inspiring designs, we ensure your classrooms, corridors, and common areas are both functional and visually appealing.

MYSTIQUE COLLECTION

Where Focus Happens

The right flooring can make all the difference in learning environments. Airlay flooring solutions deliver acoustic comfort, durability, safety, and easy maintenance, creating classrooms, libraries, and corridors where students and teachers can focus, collaborate, and thrive.

Designed for performance, sustainability, and long-term value, our flooring helps educational spaces stay inspiring and productive, day after day.

Inspiring Learning Through Colour and Design

Colour and design play a vital role in educational spaces, influencing students' emotions, concentration, learning experiences, and overall well-being. When chosen thoughtfully, colour can transform learning environments into places that motivate, inspire creativity, and support productivity.

Vibrant shades such as yellow and orange encourage energy, enthusiasm, and engagement, while calming tones like blue and green help promote focus, balance, and relaxation. Together, these elements create spaces that support both active learning and quiet concentration.

Airlay brings new life to the education sector with a diverse range of colours and material finishes designed to inspire students and enhance learning environments. Our bold, fun, and distinctive palettes uplift spaces, creating stimulating and engaging settings where students can thrive.

WCIG - VIC

Footscray High School | Kinnear Campus VIC

After the successful installation at the Kinnear Campus, the end user Footscray High School has opted to continue with the ever durable and heavy-duty Pebble carpet planks for their library at the Barkly Campus. This library refresh includes an array of colourful Paragon carpet tiles to create a fun inlay of book spines. The herringbone feature creates a design savvy and contemporary environment which gives the room a distinct finish. This is a creative space that will shape young and bright minds for years to come.

Product: Pebble Carpet Plank – Rock, Gravel and Reef & Paragon Carpet Tile - Espresso, Violet, Denim, Sunbound, Lemon Lime, Tangerine and Chilli
Credit: Alius Flooring

Footscray High School | Kinnear Campus VIC

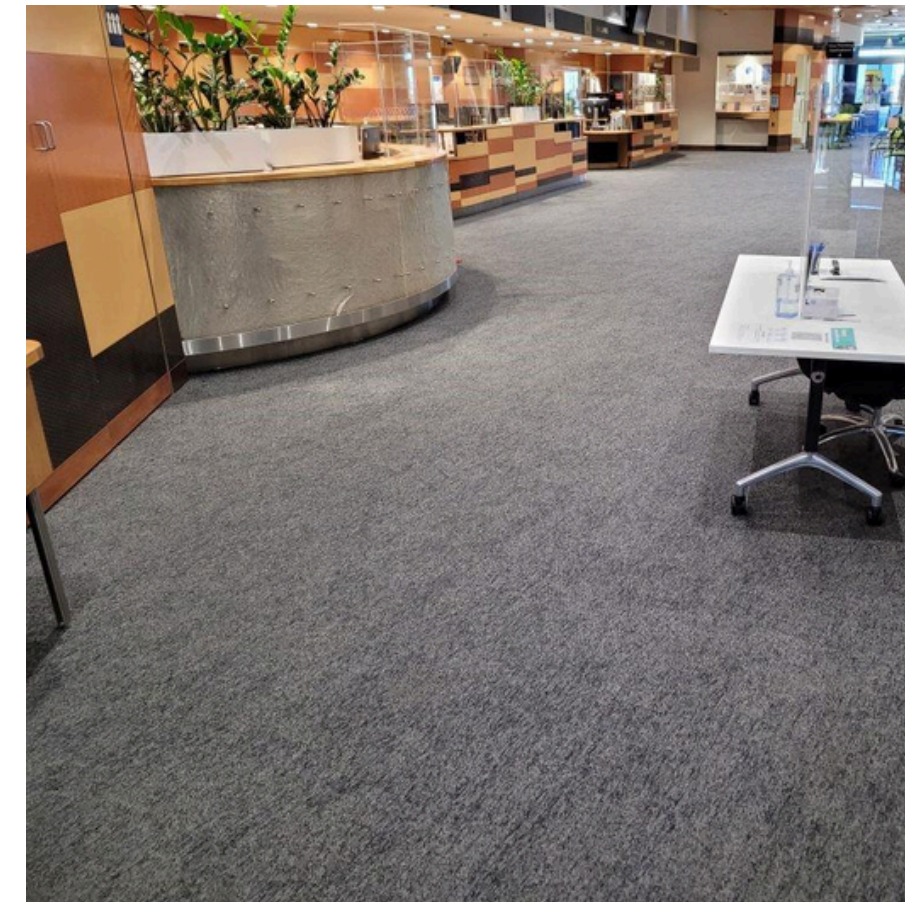

To be focused, we need to be in an environment that is quiet and calm. Pebble Carpet Planks were the perfect choice for the library refresh as they provide sound absorption and a harmonious design.

Merri-bek City Council | Coburg VIC

Pebble cushion backed carpet planks in Metal were installed in the Coburg offices. The result is a natural handcrafted visual effect on the floor. The cushion backing also aids in the absorption of ambient noise, is soft underfoot and thermally efficient.

Airloy Vinyl Planks – Durable, Comfortable

Airloy Vinyl Planks – durable, comfortable, and perfect for Schools, Student Accommodation, and Universities.

Airloy vinyl planks are ideal for breakout areas, kitchens, and bathrooms. They combine comfort and resilience, creating spaces that are warm and soft underfoot yet able to withstand heavy use.

- **Durable & Resilient** – The commercial 0.55mm wear layer hides scratches and indentations, keeping floors looking great even in high-traffic areas.
- **Comfort Underfoot** – Soft and warm, making common areas and wet zones welcoming for students and staff.
- **Easy Maintenance** – Quick and simple to clean, reducing disruption in busy environments.

With Airloy vinyl planks, schools and universities can create safe, practical, and visually appealing spaces without compromising on performance.
